WCDN's 11th International Christian Medical Conference

Successfully held in Sofia, the capital city of Bulgaria, with medical professionals from 43 countries attending

WCDN hosted the 11th International Christian Medical Conference in Bulgaria in May of 2014. Through the interest and cooperation of many doctors, they glorified God more greatly as years went by (Pic. 1). Dr. Jaerock Lee's welcome message; Dr. Gilbert Chae, receiving the Thanksgiving Plaque from Bulgarian Organizing Committee (Left); Dr. Lyubka Tancheva, Director of WCDN Bulgaria; Sound of Light Chorus, performing; and doctors praising the Lord and listening attentively to the case presentations (Pics. 2-7).

Under the theme of "Medicine, Science & Spirituality", the 11th International Christian Medical Conference was conducted at the Sheraton Hotel in Sofia, Bulgaria's capital city, on the 9th and 10th of May, 2014.

This conference was covered by BNT1, the Bulgarian public TV station and broadcast live via the Internet in English and Spanish. The simultaneous interpretation service was offered in Bulgarian, English, Spanish, and Russian at the conference.

The news about the conference was reported by the international news agencies Reuters, AFP, and Business Wire, and Bloomberg Businessweek which is a U.S. weekly business magazine. In addition, it was made known all over Europe through many Italian, German, and French media networks.

At 8 A.M. on May 9, 2014, the Bulgarian Conference, hosted by WCDN (World Christian Doctors Network), commenced with praises by local praise singers. There were 240 medical professionals from 43 countries including U.S., Israel, Australia, Mexico, Kenya, and India. (We first announced 38 countries in attendance, but 5 more countries

were confirmed later). Following the introduction of participants' countries, the Bulgarian national anthem was performed. Then, Dr. Kiril Svilenov, Chairperson of Organizing Committee of the Bulgarian Conference delivered the welcoming message and Dr. Gilbert Chae, President of WCDN, gave the message of greeting.

Dr. Jaerock Lee, Founder and Board Chairman of WCDN welcomed them with a video message. He said he felt sorry for the current generation since though disasters are overflowing very few people find and believe God and even believers are losing faith. He emphasized that to show the works of God tangibly is the most effective way of leading people to meet and experience God, accept Jesus Christ, and have true hope.

Then, various divine healing cases were presented that had been selected in advance verification. The divine healing cases of hemiplegia (Faroe Islands), Cholesteatoma (Korea), Acute Viral Meningoencephalitis with Coma (Armenia), Pre-eclampsia (Parkistan), and Posttraumatic Dystrophy (Netherlands) were presented with medical data on a big screen. After the presentations, participants freely asked questions.

WCDN directors of each country gathered after the conference on the first day and shared their visions in the ministry of WCDN. They also discussed the direction and development of the ministry.

WCDN is now headquartered in South Korea and performs its active ministry with 19 branches located in U.S., Russia, Italy, Israel, countries in Middle East, Kenya, Singapore, the Philippines, and Australia.

On the second day, there were case presentations on multiple fractures (Mexico), a catastrophic small bowel obstruction (Australia), restoring the heart, divine intervention (USA), Pneumothorax (Korea), and hematoma intraparenchymal temporooccipital (Venezuela). Dr. Gilbert Chae from Korea testified to Down syndrome healing cases by Dr. Jaerock Lee's prayer, which caught great attention of people in attendance (more about this on Page 2).

At the end of the conference, the organizing committee members of the 2015 Malaysia Conference were introduced. The Bulgarian local organizing committee presented an appreciation plaque for Dr. Jaerock Lee, Founder of WCDN with their love.

Dr. Lyubka Tancheva (Bulgaria) gave a special speech on 'Old Myths and New Challenges in the Modern Neuroscience,' Dr. Frans J. Cronje (South Africa) presented 'Physical, Mental & Spiritual Health Study,' and Dr. Andre Gasiorowski (Israel) lectured on 'Verichip'.

Dr. Alvin Hwang (Korea) also delivered a special lecture on "Pneuma-Psycho-Somatology" subtitled with 'Separation of Spirit'. He presented evidential data that prove the spiritual realm. It drew great responses and served as a good opportunity to give a thought of men's origin that consists of spirit, soul, and body.

The Sound of Light Chorus of Manmin Performing Arts Committee opened the participants' hearts widely by performing beautiful and powerful dances and singing emotion-filled praises in local language and other many languages.

■ WCDN is an organization transcending denominations of international Christian doctors. They prove, based on concrete medical data, that diseases that are medically incurable are healed by the power of God.

The Work of Power

A Fetus with Down Syndrome Can Become Normal!

A normal human has the DNA composition of 23 pairs. In cases of Down's syndrome, there is one more chromosome in the 21st.

QUAD screening is a maternal blood screening test performed during the 4th month of pregnancy to classify a patient as either high-risk or low-risk for chromosomal abnormalities. Its accuracy is between 70 and 80 percent. Any result of a QUAD test that is below 270 falls into the Down's syndrome high risk group.

Of course, there are other thorough exams like amniocentesis, amniocopy, high resolution ultra sound, but they might have their own dangers and false negativities.

The physical development of people with Down syndrome is often slower than normal. They have flattened noses, the middle of the forehead is wide, the face is rounded, and intelligence levels are lower. Those who have Down's syndrome will live with it their whole life.

The couples who gave birth to normal babies after receiving Dr. Jaerock Lee's prayer are couples: Deacon Munsin Kim, Sister Miyoung Kim, Deacon Juncheol Kwon, and Deacon Hyunsik Jang

To be healed of it, the abnormality of zillions of chromosomes would have to be changed to normal in a moment. In Manmin Central Church, many people received the diagnosis of Down's syndrome high risk group, but they gave birth to normal babies after receiving prayer by Dr. Jaerock Lee, the Senior Pastor.

God the Almighty can change the abnormality of zillions of chromosomes in a moment. Here is an interesting situation supporting this kind of case.

Elder Kwankyu Lee and his wife had their QUAD test in the fourth month of the pregnancy. The result was 1:267, which was Down's syndrome positive. They looked back at their Christian lives that were improper in the sight of God, and they repented of breaking peace with each other. Then they received prayer from Dr. Jaerock Lee. They did the same test again the next day, and the result was 1:1810. It turned negative just in one day. Hallelujah!

The Furnace Refines Gold...

"The refining pot is for silver and the furnace for gold, but the LORD tests hearts" (Proverbs 17:3).

God sometimes allows us to undergo trials so that we can be made perfect by casting off the sinful natures in our hearts. Only when we become sanctified through trials that allow for us to cast off every form of evil can we have faith like pure gold.

Trials refer to many difficulties that we may meet with in the process of fighting against sins according to the Word of God. Moreover, there are tests for sanctified people so that they can receive blessings by passing them. No matter what, if we successfully pass them, our faith increases and we can receive blessings. Thus, it is important to overcome them with joy and thanks.

Romans 5:3-4 reads, "And not only this, but we also exult in our tribulations, knowing that tribulation brings about perseverance; and perseverance, proven character; and proven character, hope." What is the reason God lets His loving children undergo trials and afflictions?

1. God tests the heart of men

Parents feel compassion for their children when they see them studying and even staying up late to finish. However, they can't study on their behalf and parent should not hinder them from studying. Instead they ought to encourage and help them study well.

Meanwhile, if a child goes astray, though it is heart-breaking, his parents may correct him even with punishment. Proverbs 13:24 says, "He who withholds his rod hates his son, but he who loves him disciplines him diligently."

In the same way, God doesn't just sit by and watch His beloved children fall into sins. He guides them to the right way; therefore when they don't follow Him, He allows trials to be given to them. Just as the refining pot is for silver and the furnace for gold, God tests hearts of people and leads them to be His true children who resemble His image. In other words, He helps them discover sinful natures in their hearts through trials and root them out.

The thing is, it is not hard to remove sinful natures from our hearts. Like a tree has fine roots, there are many forms of evil in the heart. However, if we first pull out obvious evil attributes that are like the major roots that seem relatively hard to root out, we can cast away other various forms of evil like the tree's fine

roots without difficulties.

God who is perfect and holy wants His children to become perfect and holy as well. That is why He guides His children to grow perfect and increase their faith through tests of faith. If we are mature in faith through tests, we will receive the blessings of souls' prosperity, everything going well, and good health. Therefore, trials are blessings.

2. The reasons God tests heart of men

The first reason is for not living in the Word of God.

James 1:13 reads, "Let no one say when he is tempted, 'I am being tempted by God'; for God cannot be tempted by evil, and He Himself does not tempt anyone." Even though said in this way, many people say God tempts and tests them when they are faced with hardship, which saddens God.

God is the God of love who wants to give only good things to His children according to justice. Even an evil person wants to give his child good things as written in Matthew 7:11. The God of love never wants His children to suffer by giving tests and afflictions.

Then, why do some children of God suffer in hardship? **This is because they are tempted by Satan due to their own greed and it causes them to have difficulties.**

Nothing will be a problem if one is satisfied with what God gives him. But people want more with greed and do unrighteous. They sometimes deceive others for their own benefits and practice lawlessness by all possible means. If they have unrighteousness and greed in them, when Satan works on them, the attributes are revealed in action. Just as James 1:15 says, "Then when lust has conceived, it gives birth to sin; and when sin is accomplished, it brings forth death," they can't avoid going to the way of destruction.

Another reason God punishes His children is because they live in sin and evil. God's children must fight against sins even to the point of shedding blood to resemble God the Father who is holy. Since they haven't cast away sins, though they should have become sanctified, God can't help but allow them punishment. If you belong to this case, you must realize the depth of God's love that leads you rather than feeling

God sometimes allows us to undergo trials so that we can be made perfect by casting away sinful natures in our hearts.

Only when we become sanctified through trials that allow for us to cast off every form of evil can we have faith like pure gold.

Trials refer to many difficulties that we may meet with in the process of fighting against sins according to the Word of God.

discouraged about it.

Parents don't let their children go the wrong way because of their love for them. Even by punishing with a rod, they may lead the children to the right way. In the same manner, God punishes His children when they sin and allows trials to be given to them to keep them from going way of death. Hebrews 12:6 states, "For those whom the Lord loves He disciplines, and He scourges every son whom He receives."

Of course, God doesn't give punishment from the beginning. He gives warnings first and many times to give His children opportunities to turn back from sin and evil. When they sin, for instance, the Holy Spirit in them laments and they feel distressed. If they do not turn back even through the Spirit's lamentation, God still uses many ways to give them realization. But if they do not turn back yet, then, punishment or afflictions are given to them.

Hebrews 12:9-11 says, "Furthermore, we had earthly fathers to discipline us, and we respected them; shall we not much rather be subject to the Father of spirits, and live? For they disciplined us for a short time as seemed best to them, but He disciplines us for our good, so that we may share His holiness. All discipline for the moment seems not to be joyful, but sorrowful; yet to those who have been trained by it, afterwards it yields the peaceful fruit of righteousness."

It tells us that God disciplines us for our good, so that we may share His holiness. However, it doesn't mean God Himself gives us punishment though it says 'God disciplines us'.

In Genesis Chapter 3, the serpent that tempted Eve to eat from the tree of the knowledge of good and evil was cursed so it came to go on its belly and eat dust all the days of its life. Here, the 'serpent' spiritually symbolizes Satan and 'dust' refers to men of flesh that were made of dust. It implies that Satan can bring out to men trials, afflictions, and diseases to the extent that they commit sins.

That is, God guides us to live in the truth by permitting afflictions and punishment for us when we live outside of His Word because He loves us. Because we can possess pure-gold-like faith after casting away evil through the process of refinement, He tests the hearts of men. It is to help them cast off evil and become perfect. Even if we are under a trial because of our own transgressions, if we believe we will be made precious ones through it and give thanks, then it will be changed into a blessing.

It is, secondly, because God wants to give them blessings.

If one wants to be a lawyer, he has to take and pass a bar exam. Although he is capable enough to be a lawyer, only when he passes the exam can he be a lawyer. Likewise, we also have to pass tests for answers and blessings to receive them.

When God wants to give someone a blessing, He allows for a test to see if he has the proper vessel for the blessing. This kind of test is not an affliction caused by one's own wrongdoing but a test for a blessing. 1 Corinthians 10:13 says, "No temptation has overtaken you but such as is common to man; and God is faithful, who will not allow you to be tempted beyond what you are able, but with the temptation will provide the way of escape also, so that you will be able to

endure it." It means that God allows you to be tested only in what you are able.

In such a case when God tests one to give him blessings and answers, He doesn't just let him be tempted. He provides the way of escape and causes all things to work together for good. This is because such persons have done nothing that causes tests to come. They just haven't received answers to their prayers.

That is why 1 Peter 1:6-7 says, "In this you greatly rejoice, even though now for a little while, if necessary, you have been distressed by various trials, so that the proof of your faith, being more precious than gold which is perishable, even though tested by fire, may be found to result in praise and glory and honor at the revelation of Jesus Christ."

3. Joseph came forth as pure gold through tests

Joseph the son of Jacob who was the father of Israel had a dream where he was lifted up very high when he was young. He cherished his dream and believed that God would surely let him achieve the dream. Contrary to the dream, however, he was sold as a slave into Egypt because of his half-brothers' jealousy.

Joseph was sold as a slave to the captain of the bodyguard to the Pharaoh of Egypt, but he worked faithfully. He became an overseer over the captain's house, and all that the master owned he put in Joseph's charge. One day, his master's wife tempted him but he refused. He was falsely accused by her and imprisoned. He who had been a lowly slave became an even more lowly man.

However, Joseph didn't lose heart even in the prison and worked diligently. He received favor in the sight of the chief jailer. The chief jailer committed to Joseph's charge all the prisoners who were in the jail; so that whatever was done there, he was responsible for it. His physical conditions didn't appear to prosper, but God saw to it that he prospered in all he did (Genesis 39:2-3). This is because the blessings God had prepared for Joseph were unimaginably great.

All the trials Joseph underwent were in the process of leading him to the blessings that God had prepared. Through the works of God, while in the prison as a jailer, Joseph happened to interpret a dream of Pharaoh and as a result of God's works Joseph became the second ruler of Egypt after the Pharaoh. At the age of 30, Joseph had become the second ruler over all the land of Egypt.

The dream Joseph had received from God 13 years prior was accomplished. Here, we can understand that all the tests and afflictions Joseph went through seemed to make him lowly, but those are the ways leading him to be lifted up and blessed.

Dear brothers and sisters in Christ, God wants His loving children to become sanctified. That is why He allows them to endure trials so that they can find their sin and evil and throw them away. Moreover, He sometimes tests them to help them spiritually grow up and to give them blessings. Therefore, I urge you to pass through any kind of tests with joy and thanks. I pray in the name of the Lord that by doing so you will enjoy God-prepared blessings and glorify Him.

“The Powerful Works of God Are Astounding!”

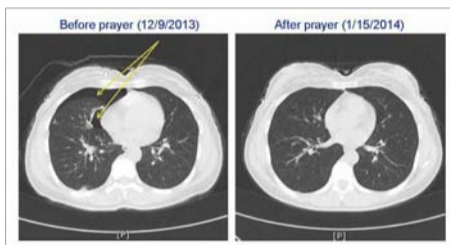

Many divine healing cases were presented at WCDN's 11th International Christian Medical Conference in Sofia, Bulgaria on the 9th and 10th of May in 2014. Here are some cases from among the many, healed by Dr. Jaerock Lee's prayer.

Deaconess Sunwoo Lee, aged 49, Female

In June 2003, Deaconess Sunwoo Lee had chest tube insertion due to a right chest wall injury, multiple rib fracture, and lung injury from assault. A chest tube is a flexible plastic tube that is inserted through the chest wall and into the pleural space or mediastinum. It is used to remove air or fluid, or pus from the intrathoracic space.

In December, 2013, she felt chest pain with cough that was diagnosed as recurrent pneumothorax. But she refused all the medical treatments and wanted to receive healing by faith. On December 29, 2013, she received Dr. Jaerock Lee's prayer.

Her chest CT scan taken on January 15 in 2014 showed pneumothorax disappeared.

◀ Before prayer (December 9, 2013): pneumothorax in the right lung (yellow indicator)
 ◀◀ After prayer (January 15, 2014): pneumothorax disappeared and lung became normal

Healing Cases of Pneumothorax

Deacon Kiyoung Jang, aged 39, Male

In April 2003, he had difficulties in going up stairs due to chest pain and difficulties in breathing. His doctor recommended he have a chest tube insertion, but he wanted to receive healing by faith.

On May 4, 2003, he found his sins and repented of them. Then he received Dr. Jaerock Lee's prayer and the symptoms went away.

▶ The big pneumothorax in lung (left) disappeared completely (right) after the prayer

Dr. Changkyu Yang, Radiologist

Healing Case of Cholesteatoma

◀ Before prayer chronic otitis media with cholesteatoma in the external auditory (circle), which causes bones under the external auditory canal to erode (arrow) and pushes the ear drum and the auditory ossicles inward

◀ After prayer chronic otitis media with cholesteatoma disappeared, and ear drum and the auditory ossicles are in the right places

Deaconess Kyungah Cho aged 47, Female

Since she was young she had chronic otitis media. So she could barely hear sound with her right ear. In October 2011, she felt bad pain in her left ear when she sneezed so she wasn't able to get enough sleep for the seven weeks that followed.

The medical test result showed that there was chronic otitis media in her left external ear and in her middle ear. It caused her to feel pain and she had increasing difficulties in hearing.

Her doctor advised her to have an operation but she wanted to receive healing by faith. She received handkerchief prayer (Acts 19:11-12) from Rev. Heesun Lee, Manmin World Guidance Pastor. Then, pain was gone.

Afterwards, she looked back upon her past days and repented thoroughly. In November 2011, she received Dr. Jaerock Lee's prayer and her hearing ability came to be normal. Without any medicine or operation, she was healed of chronic otitis media with cholesteatoma by prayer alone.

Dr. Anel Guadarrama, Pediatric Surgeon, Mexico

Multiple Fractures and Recovery of Mobility

◀ Before prayer: She had an orthopedic plate due to multiple fractures

◀ After prayer: She recovered the mobility of her arms. Now she can comb her hair for herself

Alicia Perez Plata aged 71, Female

In August, 2012, Alicia Perez Plata (the presenter's mother) had a car accident where she was run over by a car. She got a fracture of the humeral head left arm and bilateral ribs fractures. She had an operation and had to lie on the bed during the following six weeks. She also underwent rehabilitation training for three months. It left her with limitations of mobility, which caused her to have frozen shoulder (A disorder in which the shoulder capsule becomes inflamed and stiff, greatly restricting motion and causing chronic pain). She was unable to raise her arms over her shoulder. In October 2013, Dr. Anel Guadarrama attended Manmin Central Church's 31st Anniversary event and visited Muan Sweet Water Site which is the site of God's power where salty sea water changed into sweet drinkable saline water by Dr. Jaerock Lee's prayer. She submerged herself in Muan Sweet Water Pool and prayed earnestly that her mother might freely move her arms and have no difficulties in her daily life. Amazingly, transcending space and time, her mother came to move her arms freely enough to comb her own hair.
